Subject: More hearing prep materials - please review

Hi Folks - I'm still working on hearing prep materials. Attached is a table that Joanne Rodman requested which lists all of the chemicals on the IRIS agenda and the step of the IRIS process they are in. High profile chemicals are highlighted with additional details at the top. Please take a look and let me know if anything is incorrect.

Please also see the attached chemical-specific Q&As. I've flagged a few places where I think our answers should be enhanced or updated (formaldehyde, chromium 6). Please take a look at chemicals that are in your division and send me any updates or edits that are needed.

We have our first prep session with Paul A. tomorrow afternoon. It would be ideal if you could send me updates by noon tomorrow.

Thanks,
Kacee[attachment "IRIS assessments in progress update 10-3-11 v3_KDeener.docx" deleted by John
